# TL Note

A.K.A. pun corner

**賢神 - Genjin - Sage (God of Knowledge)**
The kanji spells out "Intelligence" and "God".
It is read the same as **賢人**, which means "Wise man/Sage"

The original pun, for those curious.
For a friendship's **FRI**(pretending, act etc. Actually romanized as FURI but we'll let that slide) to **END**, Isn't that a **FRIEND** after all?!

Oh and just another note for those unfamiliar with Pachinko (on page 1), it's a form of legal gambling in Japan with tons of social stigmas tied to it.
He actually used the word "Pachinkasu,"
which is a slang derogatory term to refer to it.
